2. Reports: Weekly update of field work baseline recruitment and follow-up events.

Data and sample sharing criteria

- Is regulated by the ACCDiS directorate.
- We used the regulatory system developed following the UK Center for Longitudinal Studies Protocol: it include application form , presentation on the directore and come back the information develop.

Support Committes

Event adjudication committee

Each event reported by SISMAULE or directly from a local hospital is reviewed by a set of clinical experts.

Causes of death are also reviewed and confirmed by representatives from DEIS (National Health Statistics Department).

Data and samples access committee

Applications to access and use data and/or biological samples collected at MAUCO are reviewed by ACCDiS PIs + other independent members (e.g. from National Corporation of Cancer, Chilean scientific societies)

Members of Data and Sample Access Committee:

- **Dr. Sergio Lavandero**
ACCDiS Director
- **Dra. Catterina Ferreccio**
